

"Whoa, whoa, whoaaaaa!"

"I didn't think it would go this high."

I held my hair down with one hand to stop it from flapping in the wind.

YOU CANT TURN DOWN THE LOUD

This game is EXTREMELY short. 5-10 minutes of playtime depending on reading speed.

The translation is understandable for the most part. That being said the choices you are given can be very unclear.

All in all not worth the time or money

. i only played this game because it had Elon Musk in the name. I'm Loving It!. Should support mouse and keyboard :(need more games like this. Interesting concept, but tedious and buggy gameplay.. Dat one moment when you're the only one with 14V2 but no skins? Booo Prestige one noob

Dat one moment when you're the only one with 3V14 but this skin? Okay you're forgiven

Short and cute casual adventure. Doesn't really have any hidden object scenes, it's more about solving puzzles. The story never really goes anywhere, but I guess it's not really an issue per se. The visuals are very pleasing and there's no upscaling or pixelation to speak of. The animations are also pretty well done. Overall, it seems to have higher production values than the average HOG. A couple hidden object scenes would have helped break the routine, actually, but it's still very much worth playing.

Strangely, the game made my fans spin very quickly, and was running at some 6000fps! Fortunately I just had to enable Vsync from the graphics card control panel to solve the problem for good.. I made a darker gentlemen walk out of my store with an old fashioned Chaplin, 10/10 Devs did nothing wrong.. 4/5 Very fun game for a short amount of time. However, I feel as if the creators could at a bit more content to appeal to more players. I know this may be considered a "meme game" but these types of games can still be fun over a long period of time. I played the game for around 20 minutes and became very bored. The first 20 minutes though were very fun. If you add some content that give the game some "purpose" I would gladly play it for a long period of time. I could think of added like a case or something random that adds more content to the game. The creators may not want to work on this game, that's fine with me. Just saying they could add a little more. Overall, good game.. You can buy implants to seduce enemies! 10/10. This game really works your brain in a good way. One of the most relaxing games I've played as well.. A really slow paced relaxing game. Would not recommend to people who like fast paced games. I r8 8/10.. Un'avventura punta e clicca come quelle di altri tempi. Niente di nuovo, ma apprezzabile e godibile. Peccato solo per la "caccia ai pixel" (bisogna cercare oggetti quasi non notabili sullo schermo).

A point and click adventure game as old school's adventures. Nothing new but you can love it. Some objects can be hard to find because you have to do pixel hunting..... Can't run on win 10..tried compatability mode..but now it refuses to start. People asked for a fix..no answers..I know this game is old but probably better if you run it on an old PC so i stuck with recommended for that purpose...disappointed cause I always loved this game. Wish they kept it updated..Getting refund.. This Games has great potetial but still feels unfinished. The way in which you can customize your army is something I have not seen in an RTS. There are only two modes on this game: skirmish and LAN. I hope the devs add a online multiplayer mode. The battles seem to have a adequate amount of micromanagement. I wish the pop cap could be increased. Great game keep up with the updates. love this game play it all the time
